

CURRICULUM VITAE

Vaddmani Jagadeeswara Reddy

Assistant Professor – CSE (AI & ML)

Annamacharya Institute of Technology & Sciences, Kadapa, India

1. Current Working Details

I have been serving as an Assistant Professor in the Department of Computer Science and Engineering (AI & ML) at Annamacharya Institute of Technology & Sciences, Kadapa, since August 2025. My passion lies in teaching Artificial Intelligence and Machine Learning to undergraduate students, guiding them in academic projects, and encouraging research activities. I am committed to developing innovative solutions in deep learning, medical image processing, and computer vision, while contributing to the academic growth and technical skills of students.

2. Education

Course	College/University	Year of Passing
M. Tech (Artificial Intelligence and Machine Learning)	RGUKT RK Valley, IIIT-RK Valley	2023-2025
B. Tech (Computer Science and Engineering)	YSR Engineering College of YVU	2019-2022
Diploma (Computer Science and Engineering)	Loyola Polytechnic College	2016-2019
Board of Secondary Education (SSC)	Swamy Vivekananda High School	2015-2016

3. Research Interest

Artificial Intelligence, Machine Learning, Deep Learning, Computer Vision, Medical Image Processing, Image Super-Resolution using GANs, Convolutional Neural Networks (CNN), Transfer Learning, and Lossless Image Compression Techniques.

4. Journal Publications

Currently, no journal publications. Research work is in progress for submission to reputed journals.

5. Conference Publications

S.NO	Publication Details	CORE Ranking
1	M. Vinitha, K. Vinod Kumar, C. Delhipolice, V. Jagadeeswara Reddy , and K. Pavan Kumar, “Integrated U-Net 3+ with Decomposed Multi-head Self-Attention Block and Filter Response Normalization for Brain Lesion Localization and Tracking using 3D MRI,” <i>ITM Web of Conferences</i> , Vol. 79, 2025. DOI: 10.1051/itmconf/20257901057.	—

6. List of Books Published

Currently, no books published.

7. List of Book Chapters Published

Currently, no book chapters are published. Research work is ongoing in the areas of Artificial Intelligence, Deep Learning, and Medical Image Processing.

8. List of Patents Applied

S. No.	Patent details
1	I have applied for a patent with Application No. 202541074794A titled “AI-Driven Synthetic Biology Designing Novel Organisms for Environmental Remediation,” published in The Patent Office Journal, India, August 22, 2025.

9. Teaching Experience

Working as an Assistant Professor (contract basis) in the Department of Computer Science and Engineering (AI & ML) at Annamacharya Institute of Technology & Sciences, Kadapa, from August 2025 to till date. Courses handled include Introduction to Programming, Data Structures, Artificial Intelligence, and Machine Learning, along with guiding undergraduate student projects and participating in departmental research activities.

10. Research Experience

- a. Actively involved in research in the areas of Artificial Intelligence, Machine Learning, and Deep Learning, with a focus on **medical image processing and computer vision applications**.
- b. Worked on research projects such as **Medical Image Super-Resolution using GANs (ESRGAN)**, improving image quality using PSNR and SSIM metrics.
- c. Published a research paper titled *“Integrated U-Net 3+ with Decomposed Multi-head Self-Attention Block and Filter Response Normalization for Brain Lesion Localization and Tracking using 3D MRI”* in ITM Web of Conferences, 2025.
- d. Guided undergraduate students in mini projects related to Artificial Intelligence, Machine Learning, and Data Structures.

11. Academic Projects

I. Medical Image Super-Resolution using GANs (M.Tech Project)

Developed a deep learning model using **ESRGAN architecture** to enhance the resolution and quality of medical images such as MRI scans. The model improves diagnostic accuracy by increasing image clarity and optimizing performance using evaluation metrics like PSNR and SSIM.

II. Fruit Classification using Transfer Learning (B.Tech Project)

Built a deep learning model using pre-trained CNN architectures such as ResNet, VGG, and Inception for image classification. Improved model performance through data augmentation and fine-tuning techniques.

12. Professional Development Activities

S. No.	Year	Type of Activities Performed
1	2025	Presented a research paper at the International Conference on Knowledge Engineering and Information Systems (KEIS-2025), published in ITM Web of Conferences.
2	2025	Presented a paper at the National Level Conference on Emerging Trends in Artificial Intelligence and Network Security at Santhiram Engineering College.
3	2025	Attended One-Week Short Term Course on Research Methodology at JNTU

		Hyderabad (UGC-MMTTC).
5	2025	Attended FDP on Internet of Things conducted by B.E.T Sadathunnisa Degree College, Bangalore.
6	2025	Participated in FDP on Understanding IPR: Research, Patents, Copyrights, Trademarks, and Scholarly Writing at Malla Reddy College of Engineering.

13. Administrative Responsibilities

Presently working as CRT (Campus Recruitment Training) In-charge at Annamacharya Institute of Technology & Sciences, Kadapa, responsible for coordinating training activities, preparing students for placements, and organizing skill development programs.
